

SENIOR DESIGN ARCHITECT

Join our team at TowerPinkster and open a new door to an amazing career! TowerPinkster, an architecture, engineering and interior design firm based in Michigan, Indiana, and Kentucky, is looking for a talented Senior Design Architect for our Michigan offices. The purpose of this position is to listen and collaborate with our clients to develop programming and design concepts which bring creativity and innovation. The candidate would have strong ability to work with and mentor younger designers and provide insights and guidance to the design group. Areas of design specialty would be beneficial in any of TowerPinkster's five core market sectors, as well as any advanced certifications or trainings.

POSITION RESPONSIBILITIES

- Leading medium to large size projects and project teams (25,000sf to 200,000sf)
- Leading a team during the project programming phase to understand client needs and desires
- Developing design iterations and leading discussions during concept design to refine ideas
- Interpreting, organizing and coordinating assignments while executing client vision
- Planning and developing architectural projects with high complexities
- Exploration of subject area, definition of scope, selection and development of concepts and methods
- Create architectural design, design coordination, renderings and graphics utilizing strength of design department
- Assist with material definition, outline specifications
- Support role in project coordination and document development (all phases)
- Business Development, marketing, marketing graphics, interviews and presentations
- Mentor junior design team members and promote learning opportunities
- Delegate work assignments for growth, matching responsibility to person
- Work independently and connect with Department Manager for reviews and resources
- Set right expectations and monitor activities and progress of project

POSITION QUALIFICATIONS

- Licensed Architect or Architectural Designer with a minimum of 10 years' experience in the field
- Able to show technical understanding of constructability and material selections that relate to design expression
- Able to present from medium to large size groups and represent the Firm positively
- LEED accreditation preferred
- Able to sketch and draw by hand and create computer generated 3d graphics
- Able to create dynamic graphic presentations and exhibit solid design and communication skills
- Working knowledge of REVIT and Photoshop
- Solid foundational knowledge of health and safety codes
